Child Abuse and Neglect Dec 10 2020 This clear and compelling textbook provides a complete survey of the field of child abuse and neglect from the perspective of modern developmental attachment theory. It starts by describing the ways in which attachment difficulties manifest themselves in children's behaviour, and goes on looking at abuse, neglect, and compound cases of abuse and neglect, backing it all up with empirical research evidence and vivid case material. In its final section, it provides a comprehensive review of attachment-based interventions. Written by an extremely respected and successful author, this book, anchored in research evidence, places its emphasis on practice implementation and aims at answering all the kinds of questions practitioners and student practitioners specialising in child welfare are most likely to ask.

*Social Work and Family Violence* Mar 01 2020 " To competently serve families, social work students must understand the theories and issues surrounding family violence. This innovative textbook comprehensively discusses three types of family violence: child abuse and maltreatment, intimate partner violence, and elder abuse. Discussions on assessments and interventions are provided for the adult victims of family violence, adult survivors of child abuse, child witnesses of domestic violence, adolescent victims of dating violence, elderly victims, and perpetrators of abuse. Assessment procedures and evidence-based treatments are also discussed. This book also covers a broad range of vulnerable populations and addresses their needs for particular services, legislative action, and strategies for effective intervention. The book meets the criteria of the Council on Social Work Education with its focus on ethics, populations-at-risk, and diversity. Intended for both bachelor's- and master's-level social work students, this text includes a variety of features such as case studies from real-life stories of family violence in every chapter, key terms, discussion questions, and more. Key topics: Court structures and procedures, specialized court services for families experiencing violence, investigative interviewing, and social workers' roles within the judicial system Identifying and investigating child maltreatment, discussing symptoms and consequences, child interviewing, ethical dilemmas of mandated reporting, and the foster care system Intimate partner violence, including theoretical perspectives, laws and policies, financial costs, learned helplessness, the battered woman syndrome, orders of protection, mandatory arrest, and more Elder abuse, including an overview of theories, assessments, risk factors, Adult Protective Services, caregiver interventions, and more Instructor's Guide: Available as an electronic file, the instructor's guide features a sample syllabus suitable for a Family Violence course. *Best Practices in School Crisis Prevention and Intervention* Apr 25 2022

Crisis Prevention and Intervention in the Classroom Nov 08 2020 Crisis intervention materials designed specifically for classroom teachers are still scarce, and their role in crisis prevention and intervention continues to be one for which teachers must take the initiative to educate themselves. With updates in crisis intervention programming and legislation; integration of recent research on school shootings and other forms of school violence; and the addition of such topics as cyberbullying, relational aggression, and the needs of military families, this second edition of *Crisis Prevention and Intervention in the Classroom* further widens teachers' perspectives on school crises and puts them in a better position to prevent and cope with these events.

The Intervention Book Jun 27 2022 Millions of viewers have watched Dr. Drew conduct professional interventions with celebrities who are struggling with addictions. But we can't all afford a professional intervention. The Intervention Book offers real-life stories and step-by-step advice for intervening in a loved one's life. In *The Intervention Book*, Kathy L., the 12-step recovery columnist for *BellaOnline*, one of the largest sites for women on the web, offers a comprehensive guide to understanding and staging interventions. She begins by explaining the concept of intervention--the critical waking up point when the addict accepts that addiction has taken over his life. She walks readers through the different types of interventions, and offers advice from professional counselors and family members who have used interventions successfully. The Intervention Book includes stories of real people, more than twenty first-hand accounts from recovering addicts and alcoholics, along with their friends and families who have been through interventions and started recovery. For anyone who has a friend or loved one struggling with an addiction, this book offers faith and hope of a life in recovery.

*Handbook of Wise Interventions* Dec 30 2019 Precise shifts in the ways people make sense of themselves, others, and social situations can help people flourish. This compelling handbook synthesizes the growing body of research on wise interventions--brief, nonclinical strategies that are "wise" to the impact of social-psychological processes on behavior. Leading authorities describe how maladaptive or pejorative interpretations can undermine people's functioning and how they can be altered to produce benefits in such areas as academic motivation and achievement, health, well-being, and personal relationships. Consistently formatted chapters review the development of each intervention, how it can be implemented, its evidence base, and implications for solving personal and societal problems.

*Adolescent Mental Health* Aug 18 2021 Adolescence is a period characterized by both increased susceptibility to risks and new-found strength to withstand them. Whilst most young people are well equipped to manage the changes associated with growing up, other maladjusted and marginalized adolescents already have, or are at risk of developing, mental health problems. *Adolescent Mental Health: Prevention and Intervention* is a concise and accessible overview of our current knowledge on effective treatment and prevention programs for young people with mental health problems. Whilst addressing some of the most common mental health issues among young people, such as behavioral problems and drug-related difficulties, it also offers a fuller understanding of the evidence-based treatment and prevention programs that are built upon what we know about how these behavioral and emotional problems develop and are sustained. The volume illustrates contemporary and empirically supported interventions and prevention efforts through a series of case studies. It has been fully updated in line with the latest NICE and DSM-V guidelines, and now includes an added chapter on implementation, and what factors facilitate implementation processes of intervention efforts. *Adolescent Mental Health: Prevention and Intervention* will be essential reading for students and practitioners in the fields of child welfare and mental health services, and any professional working with adolescents at risk of developing mental health problems.

*Understanding and Managing Parental Alienation* Jul 17 2021 In *Understanding and Managing Parental Alienation: A Guide to Assessment and Intervention*, Janet Haines, Mandy Matthewson and Marcus Turnbull offer a comprehensive analysis of contemporary understanding of parental alienation. Grounded in recent scientific advances, this is the first book of its kind providing resources on how to identify parental alienation and a guide to evidence-based intervention. Parental alienation is a process in which one parent manipulates their child to negatively perceive and reject the other parent. Recognising this phenomenon and knowing when to intervene is often the biggest challenge faced by practitioners and this book provides a guide to this process. Divided into six parts, it examines what parental alienation is and how it is caused, how it affects each family member as a mental health concern and form of violence, and how to assess, identify and intervene successfully from a legal and therapy standpoint. Taking on a gender-neutral approach, the book is filled with contemporary case examples from male and female perspectives, cutting-edge research, practitioner-client dialogues, and practitioners' reflections to show the difficult realities of parental alienation. Practical and accessible, this is an essential resource for mental health professionals working with families experiencing parental alienation, as well as postgraduate students of clinical psychology, counselling, family therapy, social work, and child and family psychology. This book will also be of immense interest to family lawyers and mediators due to its multidisciplinary approach.

*Pathology and Intervention in Musculoskeletal Rehabilitation - E-Book* Aug 06 2020 Detailed and evidence-based, this text focuses on musculoskeletal pathology and injury with descriptions of current and practical rehabilitation methods. *PATHOLOGY AND INTERVENTION IN MUSCULOSKELETAL REHABILITATION* provides everything you need to create and implement rehabilitation programs for your patients with musculoskeletal disorders due to injury, illness, or surgery. Each intervention includes a rationale, pathology and related problems, stages of healing, evidence in literature, and clinical reasoning considerations. This is the third volume of the new four-volume musculoskeletal rehabilitation series anchored by "Magee's Orthopedic Physical Assessment, 5th Edition." A companion CD with references and links to MEDLINE abstracts, provides easy access to the articles referenced in the text. Evidence-based content, with over 4,000 references, supports the scientific principles for rehabilitation interventions, providing the best evidence for the management of musculoskeletal pathology and injury. Over 150 tables and 250 boxes help organize and summarize important information, highlighting key points. Over 700 drawings, clinical photos, radiographs, and CT and MRI scans demonstrate and clarify important concepts. Trusted experts in musculoskeletal rehabilitation — David Magee, James Zachazewski, Sandy Quillen, plus more than 70 contributors — provide authoritative guidance on the management of musculoskeletal pathology and injury.

*Families, Health & Illness* Nov 20 2021 This new text explores the intricate relationships between health, illness, and families and the nurses' integral role in this system. Designed to help the nurse understand the development of families' varied responses to illness stressors, the book presents practical interventions needed to prevent and decrease stress during illness. Content focuses on the family as the essential resource in the treatment of illness and the promotion of wellness. This text utilizes both a classic framework and an original model created by the authors.

*Mental Health Promotion, Prevention, and Intervention with Children and Youth* Jun 23 2019 This important new text provides a framework for occupational therapists and occupational therapy assistants that can be applied in all children and youth practice settings. The content lays a foundation for conceptualizing the role of occupational therapy in mental health promotion, prevention, and intervention when working with children and youth--those with and without disabilities, mental illness, or both--in schools and community settings. Reflecting a public health approach to occupational therapy services at the universal, targeted, and intensive levels, the emphasis is on helping all children develop and maintain positive affect, positive psychological and social functioning, productive activities, and resilience in the face of adversity.

*Transcultural Nursing* Oct 27 2019 Provide quality care for clients from culturally diverse backgrounds! *Transcultural Nursing, 8th Edition* shows you how to apply assessment and intervention strategies to individuals from a variety of different cultures. Based on Giger and Davidhizer's unique transcultural model, this text helps you design culturally sensitive care with use of the six key aspects of cultural assessment: communication, time, space, social organization, environmental control, and biologic variations. Written by nursing educators Joyce Newman Giger and Linda G. Haddad, *Transcultural Nursing* shows how an understanding of cultural variations and individual patient needs will help you provide safe and effective care. UNIQUE! The six key aspects of cultural assessment each receive a full chapter of coverage, allowing you to also apply the *Transcultural Assessment Model* to cultures not covered in the text. Case studies and critical decision-making questions help you apply the assessment framework to practice. 23 chapters on specific cultural groups apply this assessment model to the clients most commonly encountered in United States health care settings, with nearly all chapters written by contributors who are part of that ethnic group. Client care plans in culture-specific chapters show how to apply principles to the needs of individuals. Review questions reinforce your understanding of cultural principles, with answers found in the back of the book. Discussions of spirituality throughout the text provide a holistic, integrated approach to culture, beliefs, and assessment. NEW co-author Dr. Linda Haddad is an internationally recognized cultural scholar who has taught nursing around the globe, has acted as an advisor and coordinator for the World Health Organization, and has published over 30 scholarly articles on nursing with a focus on understanding the cultural implication to care. UPDATED! Cultural chapters are completely revised to reflect the shifting experiences of cultural groups in our society.

*Intervention* Apr 01 2020 Barbara Covington has one more chance to save her daughter from a devastating addiction: staging an intervention. But when eighteen-year-old Emily disappears on the way to drug treatment--and her interventionist is found dead at the airport where she was last seen--Barbara enters her darkest nightmare of all.

*Civil Wars, Insecurity, and Intervention* May 03 2020 Since the end of the Cold War, a series of costly civil wars, many of them ethnic conflicts, have dominated the international security agenda.

This volume offers a detailed examination of four recent interventions by the international community.

**Conjoint Behavioral Consultation Feb 09 2021** This reader-friendly second edition of Sheridan and Kratochwill's important work offers innovative applications of CBC as an ecological, evidence-based approach. In this new edition, the authors combine best practices in consultation and problem-solving for interventions that promote and support children's potential, teachers' educational mission, and family members' unique strengths. A step-by-step framework for developing and maintaining family/school partnerships takes readers from initial interviews through plan evaluation. Practical strategies illustrate working with diverse families and school personnel, improving family competence, promoting joint responsibility, and achieving other collaborative goals.

**Intervention Jul 25 2019** In simple terms, this book shows how chemical dependency affects those around the addicted person, and teaches concerned people how to help and how to do it right. In **Intervention: How To Help Someone Who Doesn't Want Help**, Dr. Vernon Johnson describes the process that has successfully motivated thousands of chemically dependent people to accept help. In simple terms, this book shows how chemical dependency affects those around the addicted person, and teaches concerned people how to help and how to do it right. Johnson shows how chemical dependence affects those around the sick person--spouses, children, neighbors, co-workers. He also points out that intervention is not a clinical process, but a personal one that brings families back together.

**Geriatric Neuropsychology Jul 05 2020** This major clinical reference text is the first volume to systematically address the entire process of neuropsychological assessment and intervention with older adults. The expert editors and contributors detail the current state of knowledge about frequently encountered conditions ranging from mild cognitive impairment to progressive, stable, and reversible dementias. Evidence-based assessment and intervention strategies are described, and specific guidance is provided for linking neuropsychological evaluation to individualized treatment planning. Demonstrating an array of cognitive training, compensatory, and psychotherapeutic approaches, the volume shows how these can successfully be used to improve patients' functioning and quality of life.

**Working Memory and Academic Learning May 15 2021** Equipping school and child psychologists, and neuropsychologists with critical information on the role of working memory in learning and achievement, Working Memory and Academic Learning offers guidance on assessment tools, interventions, and current evidence-based best practices. Its specific, step-by-step guidance and hands-on case studies enables you to identify how working memory relates to academic attainment and how to apply this knowledge in professional practice.

**Bullying Prevention and Intervention Aug 30 2022** Grounded in research and extensive experience in schools, this engaging book describes practical ways to combat bullying at the school, class, and individual levels. Step-by-step strategies are presented for developing school- and districtwide policies, coordinating team-based prevention efforts, and implementing targeted interventions with students at risk. Special topics include how to involve teachers, parents, and peers in making schools safer; ways to address the root causes of bullying and victimization; the growing problem of online or cyberbullying; and approaches to evaluating intervention effectiveness. In a large-size format with convenient lay-flat binding, the book features helpful reproducibles, concrete examples, and questions for reflection and discussion. This book is in The Guilford Practical Intervention in the Schools Series, edited by T. Chris Riley-Tillman.

**Statebuilding and Intervention Sep 30 2022** This edited book sets out and engages with some of the key policies, practices and paradigms of external intervention in the case of state support and reconstruction. Many assumptions about statebuilding have been reconsidered in the wake of Iraq, and ongoing problems in other states such as Afghanistan, Bosnia and Kosovo. Rather than being a regional survey or a policy-oriented 'lessons learned' book, this collection explores the broader framing of policy goals, statebuilding practices and the consensus on the need for Western states and international institutions to be engaged in this policy area. The volume is divided into three parts: the first engages with some of the key policy frameworks and conceptual issues raised by recent statebuilding interventions; the second considers core statebuilding practices; and the third reconsiders statebuilding paradigms more broadly. The essays open up debate and critical discussion in the field at a time when many advocates of extending statebuilding intervention suggest that the complex nature of the problems of non-Western states and societies mean that it will inevitably be contradictory and limited in its results.

**Cortical Visual Impairment Jul 29 2022** The current leading cause of visual impairment among children is not a disease or condition of the eyes, but cortical visual impairment (CVI)-also known as cerebral visual impairment-in which visual dysfunction is caused by damage or injury to the brain. The definition, nature, and treatment of CVI are the focus of great concern and widespread debate, and this complex condition poses challenges to professionals and families seeking to support the growth and development of visually impaired children. On the basis of more than 30 years' experience in working with hundreds of children of all ages with CVI, Christine Roman-Lantzy has developed a set of unique assessment tools and systematic, targeted principles whose use has helped children learn to use their vision more effectively. This one-of-a-kind resource provides readers with both a conceptual framework with which to understand working with CVI and concrete strategies to apply directly in their work.

**Human Services Dec 22 2021** Human Services: Concepts and Intervention Strategies provides a comprehensive grounding in the broad range of careers available in the human services, an introduction to the skills that are required for those careers, and case examples to help students visualize different career choices. The Eleventh Edition of this trend-setting book offers a comprehensive introduction to the field of human services, with an emphasis on practical application, and increased coverage of multicultural issues.

**Bullying Prevention and Intervention Jan 11 2021** Grounded in research and extensive experience in schools, this engaging book describes practical ways to combat bullying at the school, class, and individual levels. Step-by-step strategies are presented for developing school- and districtwide policies, coordinating team-based prevention efforts, and implementing targeted interventions with students at risk. Special topics include how to involve teachers, parents, and peers in making schools safer; ways to address the root causes of bullying and victimization; the growing problem of online or cyberbullying; and approaches to evaluating intervention effectiveness. In a large-size format with convenient lay-flat binding, the book features helpful reproducibles, concrete examples, and questions for reflection and discussion. This book is in The Guilford Practical Intervention in the Schools Series.

**Pathology and Intervention in Musculoskeletal Rehabilitation Jan 23 2022** Design and implement a rehab program on your own with Pathology and Intervention in Musculoskeletal Rehabilitation, 2nd Edition. Part of Magee's popular Musculoskeletal Rehabilitation Series, this pathology text for physical therapists provides clear guidance on patient management relative to specific musculoskeletal pathology, injury, and illness - all based on a sound understanding of basic science and principles of practice. It focuses on the specific pathologies most often seen in the clinic, and discusses the best methods for intervention for the different areas of the body in the context of the tissue-healing model. Each intervention features a rationale, along with the pathology and problem presented; stage of healing; evidence in the literature; and clinical reasoning considerations. Dedicated and focused information on the specific pathologies most often seen in the clinic, as well as the best methods for intervention for the different areas of the body, minimizes duplication of information by referring you to other titles in the Musculoskeletal Rehabilitation Series for basic scientific information regarding inflammation, healing, tissue deformation, and the development of muscular strength and endurance. Trusted experts in musculoskeletal rehabilitation, along with internationally recognized contributors, present the best evidence behind contemporary interventions directed toward the treatment of the impairments and functional limitations associated with acute, chronic, and congenital musculoskeletal conditions occurring across the lifespan. Evidence-based content, with over 4,000 references, supports the scientific principles for rehabilitation interventions, providing the best evidence for the management of musculoskeletal pathology and injury. NEW! The Skin and Wound Healing chapter looks at the numerous tools available to assist in objectively monitoring and treating a patient with an acute or chronic wound. NEW! Rotator Cuff Pathology chapter highlights the anatomy, function, and etiology of the rotator cuff, and addresses rotator cuff injuries, physical examination, and non-operative and operative treatment. UPDATED! The new edition has been completely updated, providing the latest information from the field, including facts on technical issues, basic physiology, clinical oxygenation, clinical acid base, non-invasive techniques, just to name a few. Instructor resources are available; please contact your Elsevier sales representative for details. This book's amazing content coverage offers a wealth of useful material, including illustrations, tables, examples, and case studies. This new edition is up-to-date with the latest in technology and information, ensuring the most current information is available. New figures and tables enhance the understanding of chapter material. The addition of an NBRC (National Board of Respiratory Care) Challenge at end of each chapter helps readers learn, understand, and put the information together to master the subject. The incorporation of two new On Call Cases per chapter provides further opportunity to practice clinical application of content learned, as well as helping readers utilize their critical thinking skills. Reorganized and improved table of contents presents the material in a more logical, efficient manner.

**Essentials of Intensive Intervention Apr 13 2021** Few evidence-based resources exist for supporting elementary and secondary students who require intensive intervention--typically Tier 3 within a multi-tiered system of support (MTSS). Filling a gap in the field, this book brings together leading experts to present data-based individualization (DBI), a systematic approach to providing intensive intervention which is applicable to reading, math, and behavior. Key components of the DBI process are explained in detail, including screening, progress monitoring, and the use and ongoing adaptation of validated interventions. The book also addresses ways to ensure successful, sustained implementation and provides application exercises and FAQs. Readers are guided to access and utilize numerous free online DBI resources--tool charts, planning materials, sample activities, downloadable forms, and more.
