Decompression Jan 19 2022 In this riveting tale we meet two couples caught in a web of conflicting passions, Diving instructor Sven Fiedler and his girlfriend, Antje, who live and work on the Spanish island of Lanzarote. When a tourist couple—Jola, a soap opera actress, and Theo, a stalled novelist—arrive for an intensive two-week diving experience, Sven is captivated by Jola's beauty and evident wealth. Theo suspects that Sven and Jola have begun an affair, but oddly, he seems to encourage them. Antje looks on, increasingly wary of these new clients. Cycling through different points of view, we are constantly kept guessing about who knows what—and who is telling the truth. A brutal game of temptation and manipulation unfolds, pointing toward a violent end—but a quiet one, underwater, beneath the waves.

Hacking Timbuktu Mar 09 2021 Danny is a freelance IT specialist—that is, a hacker. He and his pal Omar are both skilled at parkour, or freerunning, a discipline designed to enable practitioners to travel between any two points regardless of obstacles. This is fortunate, because they're off on an adventure that's filled with obstacles, from locked doors to gangs of hostile pursuers. Together they follow a cryptic clue, find a missing map, figure out how to get to Timbuktu without buying a plane ticket, and join the life-and-death treasure hunt, exchanging wisecracks and solving the puzzle one step at a time. An exotic setting and gripping suspense, as well as an absorbing introduction to parkour, make this thriller a genuine page-turner.

Habits of Mind Across the Curriculum Jan 27 2020 Distinguished educators Arthur L. Costa and Bena Kallick present this collection of stories by educators around the world who have successfully implemented the habits in their day-to-day teaching in K-12 classrooms. The collective wisdom and experience of these thoughtful practitioners provide readers with insight into the transdisciplinary nature of the 16 Habits of Mind—intelligent behaviors that lead to success in school and the larger world—as well as model lessons and suggestions for weaving the habits into daily instruction in language arts, music, physical education, social studies, math, foreign language, and other content areas. Readers will come to understand that, far from an "add-on" to the curriculum, the habits are an essential element for helping students at all grade levels successfully deal with the challenges they face in school and beyond. As in all their books on the Habits of Mind, Costa and Kallick have a broad and worthwhile goal in mind. As they say in the concluding chapter of this volume, "If we want a future that is much more thoughtful, vastly more cooperative, greatly more compassionate, and a whole lot more loving, then we have to invent it. That future is in our homes, schools, and classrooms today. The Habits of Mind are the tools we all can use to invent our desired vision of the future."

Hacking with Kali Feb 08 2021 Hacking with Kali introduces you the most current distribution of the de facto standard tool for Linux pen testing. Starting with use of the Kali live CD and progressing through installation on hard drives, thumb drives and SD cards, author James Broad walks you through creating a custom version of the Kali live distribution. You'll learn how to configure networking components, storage devices and system services such as DHCP and web services. Once you're familiar with the basic

components of the software, you'll learn how to use Kali through the phases of the penetration testing lifecycle; one major tool from each phase is explained. The book culminates with a chapter on reporting that will provide examples of documents used prior to, during and after the pen test. This guide will benefit information security professionals of all levels, hackers, systems administrators, network administrators, and beginning and intermediate professional pen testers, as well as students majoring in information security. Provides detailed explanations of the complete penetration testing lifecycle Complete linkage of the Kali information, resources and distribution downloads Hands-on exercises reinforce topics

Hackers and Hacking May 11 2021 This book provides an in-depth exploration of the phenomenon of hacking from a multidisciplinary perspective that addresses the social and technological aspects of this unique activity as well as its impact. What defines the social world of hackers? How do individuals utilize hacking techniques against corporations, governments, and the general public? And what motivates them to do so? This book traces the origins of hacking from the 1950s to today and provides an in-depth exploration of the ways in which hackers define themselves, the application of malicious and ethical hacking techniques, and how hackers' activities are directly tied to the evolution of the technologies we use every day. Rather than presenting an overly technical discussion of the phenomenon of hacking, this work examines the culture of hackers and the technologies they exploit in an easy-to-understand format. Additionally, the book documents how hacking can be applied to engage in various forms of cybercrime, ranging from the creation of malicious software to the theft of sensitive information and fraud—acts that can have devastating effects upon our modern information society. Documents how computer hacking fits into various forms of cybercrime Describes the subculture of computer hackers and explains how this social world plays an integral role in the business of hacking Clarifies the subtle differences between ethical and malicious hacks Focuses on the non-technical aspects of computer hacking to enable the reader to better understand the actors and their motives

Hadoop Beginner's Guide Aug 14 2021 Data is arriving faster than you can process it and the overall volumes keep growing at a rate that keeps you awake at night. Hadoop can help you tame the data beast. Effective use of Hadoop however requires a mixture of programming, design, and system administration skills. "Hadoop Beginner's Guide" removes the mystery from Hadoop, presenting Hadoop and related technologies with a focus on building working systems and getting the job done, using cloud services to do so when it makes sense. From basic concepts and initial setup through developing applications and keeping the system running as the data grows, the book gives the understanding needed to effectively use Hadoop to solve real world problems. Starting with the basics of installing and configuring Hadoop, the book explains how to develop applications, maintain the system, and how to use additional products to integrate with other systems. While learning different ways to develop applications to run on Hadoop the book also covers tools such as Hive, Sqoop, and Flume that show how Hadoop can be integrated with relational databases and log collection. In addition to examples on Hadoop clusters on Ubuntu uses of cloud services such as Amazon, EC2 and Elastic MapReduce are covered.

Manual of Psychosocial Rehabilitation Jul 13 2021 Psychosocial Rehabilitation is a comprehensive ready-reference for mental health practitioners and students, providing practical advice on the full range of interventions for psychosocial rehabilitation. It contextualises the interventions described and provides pointers to enable the reader to explore the theory and research. This manual recognises the wide-ranging impact of mental illness and its ramifications on daily life, and promotes a recovery model of psychosocial rehabilitation and aims to empower clinicians to engage their clients in tailored rehabilitation plans. The book is divided into five key sections. Section 1 looks at assessment covering tools available in the public domain, instruments, scoring systems, norms and applications for diagnosis and measurement of symptoms, cognitive functioning, impairment and recovery. Section 2 covers the full range of therapeutic interventions and offers advice on training and supervision requirements and evaluation of process, impact and outcome. Section 3 provides manuals and programs for interventions effectively provided as group activities.

Section 4 explains how to design a full programme that integrates therapeutic interventions with group programmes as well as services provided by other agencies. The final section looks at peer support and self help, providing manuals and resources that support programmes and interventions not requiring professional or practitioner direction.

Hacker's Guide to Project Management Jun 19 2019 Managing a software development project is a complex process. There are lots of deliverables to produce, standards and procedures to observe, plans and budgets to meet, and different people to manage. Project management doesn't just start and end with designing and building the system. Once you've specified, designed and built (or bought) the system it still needs to be properly tested, documented and settled into the live environment. This can seem like a maze to the inexperienced project manager, or even to the experienced project manager unused to a particular environment. **A Hacker's Guide to Project Management** acts as a guide through this maze. It's aimed specifically at those managing a project or leading a team for the first time, but it will also help more experienced managers who are either new to software development, or dealing with a new part of the software life-cycle. This book: describes the process of software development, how projects can fail and how to avoid those failures outlines the key skills of a good project manager, and provides practical advice on how to gain and deploy those skills takes the reader step-by-step through the main stages of the project, explaining what must be done, and what must be avoided at each stage suggests what to do if things start to go wrong! The book will also be useful to designers and architects, describing important design techniques, and discussing the important discipline of Software Architecture. This new edition: has been fully revised and updated to reflect current best practices in software development includes a range of different life-cycle models and new design techniques now uses the Unified Modelling Language throughout

Hacksaw Aug 02 2020 Offering professional wrestling fans a ringside seat into his adventurous life, WWE Hall of Fame wrestler Jim Duggan recounts for the first time key moments and legendary bouts both inside and outside the ring. Known to millions of enthusiasts as a charismatic patriot with an American flag in his right hand and his signature two-by-four in his left Duggan here reflects on his early life as a student-athlete on the Southern Methodist University football squad. Drafted by the Atlanta Falcons, Duggan shares how an injury-plagued rookie season curtailed his football ambitions and paved the way for a brighter career in professional wrestling. Rising to fame in the Cold War era 1980s, Duggan immediately put himself at odds with anti-American heels and engaged in legendary feuds with some of the most legendary names in the sport, including the Iron Sheik, Nikolai Volkoff, and Andre the Giant. In this who's who of top-tier wrestling, Duggan reveals not only the high points of championship bouts but also the low points that occurred far away from the TV cameras and screaming fans, including his fight against kidney cancer during the prime of his career. With each page peppered with Duggan's charming wit, fans will find much to enjoy and discover about the man they once knew only as Hacksaw. "

Effective Presentation Skills Dec 18 2021 The demands of the "Information Age" make it increasingly necessary and likely that we will need to make presentations as part of our normal activities. Making an effective presentation requires the ability to communicate and relate to other people. These are very basic skills, yet they are not usually taught to us as part of our traditional classroom education or professional training. The purpose of this book is to provide some of the key practical communication and relational skills necessary to make effective presentations. the focus is on people who make presentations for professional reasons. In particular, it focuses on presentations for teaching and training purposes, i.e., those related to organizational learning. In addition to professional trainers and teachers, it includes managers, consultants and others who need to share knowledge and information. The book covers three general areas involved in making effective presentations in a learning context including (1) basic principles for forming an effective communication strategy, (2) designing and planning effective presentations and presentation materials and (3) managing issues related to motivation and interactions with a group or audience.

A Guide to the Birds of East Africa Feb 20 2022 For lovers of Alexander McCall Smith, Nicholas Drayson introduces the charming Mr Malik and the East African Ornithological Society in **A Guide to the Birds of East Africa**. Reserved, honourable Mr Malik. You wouldn't notice him in a Nairobi street - except, perhaps, to comment on his carefully sculpted comb-over - but beneath his unprepossessing exterior lie a warm heart and a secret passion. Not even his closest friends know it, but Mr Malik is head-over-heels in love with the leader of the local Tuesday-morning bird walk, Rose Mbikwa. Little can he imagine the hurdles that lie before him. Even as he plucks up the courage to ask for Rose's hand, thieves, potential kidnappers and corrupt officials, not to mention one particularly determined love rival, seem destined to thwart Mr Malik's chances. Will an Indian gentleman in the heart of Africa be defeated by the many obstacles that stand between him and his heart's desire? Or will honour and decency prevail? 'A funny,

ingenious and touching love story' Joanne Harris, *The Times* 'A delightful comedy... It invites comparison to *The No.1 Ladies' Detective Agency* books, but it's original and, if anything, has more depth' *Daily Mail* 'Sweet, charming and utterly wonderful on the subject of birds' Metro Nicholas Drayson was born in England and has lived in Australia since 1982, where he studied zoology and a PhD in 19th century Australian natural history writing. He has worked as a journalist in the UK, Kenya and Australia, writing for publications such as the *Daily Telegraph* and *Australian Geographic*. He is the author of three other novels, *Confessing a Murder*, *Love and the Platypus* and *A Guide to the Beasts of East Africa*.

Death Waits in the Dark Dec 26 2019 It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

Hacking Harvard Jun 12 2021 It's the ultimate challenge: breaking into the Ivy League. The hack: To get one deadbeat, fully unqualified slacker into the most prestigious school in the country. The crew: Eric Roth -- the good guy, the voice of reason. Max Kim -- the player who made the bet in the first place. Schwartz -- the kid genius already on the inside...of Harvard, that is. Lexi -- the beauty-queen valedictorian who insists on getting in the game. The plan: Use only the most undetectable schemes and techno-brilliant skills. Don't break the Hacker's Code. Don't get distracted. Don't get caught. Take down someone who deserves it. The stakes: A lot higher than they think. They've got the players, the plot, and soon -- the prize. It's go time.

A House to Remember Apr 22 2022 What happened at 10 Rillington Place was so shocking and gruesome that even today everyone over a certain age still remembers the case with a shudder. In 1950, Timothy Evans was hanged for the violent murder of his baby daughter; he was also assumed to have murdered his wife. Then, less than three years later, another tenant, John Christie, was found to have killed at least six women, hiding their bodies in the garden, under floorboards and in a concealed kitchen alcove. Christie followed Evans to the gallows. It seemed unlikely that two murderers were living at 10 Rillington Place, and the evidence that emerged in the Christie case eventually led to Evans receiving a pardon. But there was also circumstantial evidence that Evans had indeed killed his wife and child. Crime student Edna Gammon firmly believes that Evans was guilty. In *A House To Remember*,

she explains why.

Habermas and Literary Rationality Dec 06 2020 Literary scholarship has paid little serious attention to Habermas' philosophy, and, on the other hand, the reception of Habermas has given little attention to the role that literary practice can play in a broader theory of communicative action. David Colclasure's argument sets out to demonstrate that a specific, literary form of rationality inheres in literary practice and the public reception of literary works which provides a unique contribution to the political public sphere.

Hadrian's Trader Apr 10 2021 Lucius is a young Centurion in the time of Hadrian, serving at Trimontium, modern-day Melrose in southern Scotland. Trista is a Roman patrician girl, living in Gaul. She is orphaned and becomes a vagrant when her parents are killed by traitors plotting to overthrow the emperor. Following the death of his wife, Lucius becomes an imperial agent, operating beyond the borders of the Empire as a trader, seeking signs of invasion. He meets Trista who is under threat of assassination. The story follows their flight across Gaul, pursued by evil forces, to the German forests in a race to avert invasion and the death of the emperor.
