The Politics of Democratization in Hong Kong Sep 18 2021 An analysis of the politics of transition in Hong Kong, focusing on the tug-of-war between China and Britain on democratization, and on the interactions between the increasingly politically active people of Hong Kong and the democratizing colonial regime. The successes and failures of British policy since 1984, and the missed opportunities to democratize faster prior to Governor Patten's appointment in 1992 are examined.

Constitutional Confrontation in Hong Kong Oct 08 2020 An examination of China's accommodation of Western constitutional values, in the light of the pending return of British Hong Kong to China. The Joint Declaration which governs the return guarantees a continuance of these values, and this study looks at the resulting tensions between East and West.

Defying the Dragon Dec 22 2021 'Defying the Dragon' tells a remarkable story of audacity: of how the people of Hong Kong challenged the PRC's authority, just as its president reached the height of his powers. Is Xi's China as unshakeable as it seems? What are its real interests in Hong Kong? Why are Beijing's time-honoured means of control no longer working there? And where does this leave Hongkongers themselves? Stephen Vines has lived in Hong Kong for over three decades. His book shrewdly unpacks the Hong Kong-China relationship and its wider significance--right up to the astonishing convergence of political turmoil and

international crisis with Covid-19 and the 2020 crackdown. Vividly describing the uprising from street level, Vines explains how and why it unfolded, and its global repercussions. Now, the international community is reassessing relations with Beijing, just as Hong Kong's rebellion and China's handling of the pandemic have exposed the regime's weakness. In a crisis that has become existential all round, what lies ahead for Hong Kong, China and the world?

Made in Hong Kong Nov 01 2022 Between 1949 and 1997, Hong Kong transformed from a struggling British colonial outpost into a global financial capital. *Made in Hong Kong* delivers a new narrative of this metamorphosis, revealing Hong Kong both as a critical engine in the expansion and remaking of postwar global capitalism and as the linchpin of Sino-U.S. trade since the 1970s. Peter E. Hamilton explores the role of an overlooked transnational Chinese elite who fled to Hong Kong amid war and revolution. Despite losing material possessions, these industrialists, bankers, academics, and other professionals retained crucial connections to the United States. They used these relationships to enmesh themselves and Hong Kong with the U.S. through commercial ties and higher education. By the 1960s, Hong Kong had become a manufacturing powerhouse supplying American consumers, and by the 1970s it was the world's largest sender of foreign students to American colleges and universities. Hong Kong's reorientation toward U.S. international leadership enabled its transplanted Chinese elites to benefit from expanding American influence in Asia and positioned them to act as shepherds to China's reengagement with global capitalism. After China's reforms accelerated under Deng Xiaoping, Hong Kong became a crucial node for China's export-driven development, connecting Chinese labor with the U.S. market. Analyzing untapped archival sources from around the world, this book demonstrates why we cannot understand postwar globalization, China's economic rise, or today's Sino-U.S. trade relationship without centering Hong Kong.

A History of Hong Kong Oct 27 2019 In 1842, a 'barren island' was reluctantly ceded by China to an unenthusiastic Britain. But the new colony prospered from the outset and, in 1898, a further area was leased to Britain for 99 years. Welsh looks at Hong Kong's history from those early days.

City on Fire Jan 11 2021 A long-term resident and expert observer of dissent in Hong Kong takes readers to the frontlines of Hong Kong's revolution. Through the long, hot summer of 2019, Hong Kong burned. Anti-government protests, sparked by a government proposal to introduce a controversial extradition law, grew into a pro-democracy movement that engulfed the city for months. Protesters fought street battles with police, and the unrest brought the People's Liberation Army to the doorstep of Hong Kong. Driven primarily by youth protesters with their 'Be water!' philosophy, borrowed from hometown hero Bruce Lee, this leaderless, technology-driven protest movement defied a global superpower and changed Hong Kong, perhaps forever. In *City on Fire*, Antony Dapiran provides the first detailed analysis of the protests, and reveals the protesters' unique tactics. He explains how the movement fits into the city's long history of dissent, examines the cultural aspects of the movement, and looks at what the protests will mean for the future of Hong Kong, China, and China's place in the world. *City on Fire* will be seen as the definitive account of an historic upheaval.

Indelible City Aug 30 2022 An award-winning journalist and longtime Hong Konger indelibly captures the place, its people, and the untold history they are claiming, just as it is being erased. The story of Hong Kong has long been dominated by competing myths: to Britain, a "barren rock" with no appreciable history; to China, a part of Chinese soil from time immemorial, at last returned to the ancestral fold. For decades, Hong Kong's history was simply not taught, especially to Hong Kongers, obscuring its origins as a place of refuge and rebellion. When protests erupted in 2019 and were met with escalating suppression from

Beijing, Louisa Lim—raised in Hong Kong as a half-Chinese, half-English child, and now a reporter who has covered the region for nearly two decades—realized that she was uniquely positioned to unearth the city 's untold stories. Lim 's deeply researched and personal account casts startling new light on key moments: the British takeover in 1842, the negotiations over the 1997 return to China, and the future Beijing seeks to impose. *Indelible City* features guerrilla calligraphers, amateur historians and archaeologists, and others who, like Lim, aim to put Hong Kongers at the center of their own story. Wending through it all is the King of Kowloon, whose iconic street art both embodied and inspired the identity of Hong Kong—a site of disappearance and reappearance, power and powerlessness, loss and reclamation.

**Consuming Hong Kong** Jan 23 2022 Consumption forms an essential part of Hong Kong people's lives today, but until now little serious attention has been paid to it. This book fills this gap, in a fascinating way. The contributors to this volume explore such topics as: - the coming of shopping malls to Hong Kong - tenants' senses of home in cramped public housing - the experiences of movie-going - alcohol as a marker of social class - the pursuit of fashion - Chinese art and identity among Hong Kong collectors - the dream and reality of owning a flat - Lan Kwai Fong and its mystique - the McDonald's Snoopy craze of fall 1998 - cultural identity and consumption in Hong Kong today This book shows how the detailed ethnographic study of consumption in Hong Kong can lead to a deeper understanding of Hong Kong life as a whole, as well as of consumption in the world at large.

**Hong Kong** Dec 10 2020 In this intriguing and provocative exploration of its cinema, architecture, photography, and literature, Ackbar Abbas considers what Hong Kong, with its unique relations to decolonization and disappearance, can teach us about the future of both the colonial city and the global city.

**Doing Families in Hong Kong** Jul 25 2019 The annual is a venue of publication for sociological studies of Chinese societies and the Chinese all over the world. The main focus is on social transformations in Hong Kong, Taiwan, the mainland, Singapore and Chinese overseas.

**Diamond Hill** Mar 01 2020 Diamond Hill was one of the poorest and most backward of villages in Hong Kong at a time when Hong Kong itself was poor and backward. We moved there in 1956 when I was almost 10. I left when I was 19. Those were the formative years of my life. It's a time that I remember well and cherish. Gambling and gangsters; fires and food stalls; the Walled City and its 'white powder'. This memoir of a native son of a Kowloon squatter village - the first book ever on Diamond Hill - presents the early days of a life shaped by a now-extinct community. Feng Chi-shun's sharp recollections of his humble upbringing are filled with warmth, humour, and an abundance of insights into a low-income Hong Kong neighbourhood that no longer exists, but remains close to the hearts of many who lived there. Diamond Hill will invite comparisons with Martin Booth's 2004 hit *Gweilo*. If you enjoyed the latter, you will likely find the former similarly absorbing, because the young Feng was, for many a "gweilo", the inaccessible yet intriguing face of an altogether edgier Hong Kong.

**Collected Hong Kong Stories** Jul 17 2021 For a definitive account of what the people of Hong Kong live by and die for, look no further than David T. K. Wong. This native son has captured the essence of a unique society. A range of characters, from barmen to laborers, scholars to wealthy businessmen, infuse these memorable stories with the dreams and concerns of those living in a British colony that turned into a special administrative region of China.

**The English Language in Hong Kong** Nov 20 2021 This book presents an empirically-grounded sociolinguistic history of the English language in Hong Kong in the past 170 years. Using substantial sets of diachronic and synchronic data, it traces the changing status and

functions of English in relation to spoken Cantonese, Mandarin and written Chinese in the key domains of government, education and business. The author tracks the rise of English-knowing bilingualism in the city's Chinese community and explores the evolutionary dynamics of Hong Kong English. He also speculates on the future of English in the territory, particularly after 2047 when the 'one country, two systems' framework established by the Sino-British Joint Declaration is dismantled. Researchers and students working in the fields of sociolinguistics, English as a global language, world Englishes, applied linguistics and English-language education will find this book provides valuable information and insights about the uses and users of English in colonial and post-colonial Hong Kong. More generally, it makes a unique contribution to the literature on the diffusion and diversification of English worldwide.

**The Civil Service in Hong Kong Apr 01 2020** This book provides a comprehensive overview of the organization, problems, issues and prospects of the civil service in Hong Kong. It examines the origin and development of the civil service, efforts to deal with the changes before and after the transition, and the process of managing public services with references to its changing role and responsibilities. The book will be of interest to academics, civil servants, professionals and students, as well as researchers interested in the role of civil servants in changing societies, and can be used for teaching courses on public administration and Asian studies.

**Forgotten Souls Feb 09 2021** The author has recorded the inscriptions on all 8000 graves in the HK Cemetery. These by the way will be available in due course as an on-line database through the Hong Kong Memory project. She has selected, from the graves she has recorded, a wide range of people whose lives shed light on the nature of society in Hong Kong. Inevitably as this was the 'Colonial' cemetery, they are predominantly Europeans, although there are numerous Chinese and a surprising number of Japanese too. She has then sought out information on these people from contemporary newspapers, land records, court records etc to provide a rich description of life in Hong Kong during the first 100 years approximately from its colonization and a wonderful series of anecdotes. Patricia Lim has lived in Hong Kong for more than thirty years and is married to a Chinese. She studied at Cambridge University and had a long and happy career teaching English, History and Latin in various schools and bringing up a family of three daughters. On her retirement from teaching she decided to try to bring the often hard to find heritage of Hong Kong Island, Kowloon and the New Territories to the attention of a wider public by publishing two books of walks. This book followed on from the second book. When gathering material for a walk round the cemeteries of Happy Valley, the old, silent, granite monuments and headstones sparked a keen interest in the lives of the forgotten people who lay buried in Hong Kong Cemetery. "Patricia Lim turns a tour of the Cemetery into a tantalizing historical journey, rediscovering the many individuals whose lives - even the most fleeting and obscure - reflect significant developments and provide a nuanced understanding of Hong Kong's past. A solid database and a riveting good read - a winning combination!" -- Elizabeth Sinn, University of Hong Kong

**Building Colonial Hong Kong Sep 26 2019** In the 1880s, Hong Kong was a booming colonial entrepôt, with many European, especially British, residents living in palatial mansions in the Mid-Levels and at the Peak. But it was also a ruthless migrant city where Chinese workers shared bedspaces in the crowded tenements of Taipingshan. Despite persistent inequality, Hong Kong never ceased to attract different classes of sojourners and immigrants, who strived to advance their social standing by accumulating wealth, especially through land and property speculation. In this engaging and extensively illustrated book, Cecilia L. Chu retells the 'Hong Kong story' by tracing the emergence of its 'speculative landscape' from the late nineteenth to the early decades of the twentieth century. Through a number of pivotal case studies, she highlights the contradictory logic of colonial urban development: the

encouragement of native investment that supported a laissez-faire housing market, versus the imperative to segregate the populations in a hierarchical, colonial spatial order. Crucially, she shows that the production of Hong Kong's urban landscapes was not a top-down process, but one that evolved through ongoing negotiations between different constituencies with vested interests in property. Further, her study reveals that the built environment was key to generating and attaining individual and collective aspirations in a racially divided, highly unequal, but nevertheless upwardly mobile, modernizing colonial city.

**Fishing in Hong Kong** May 27 2022 Did you leave your rods at home before relocating to Hong Kong, unaware that such a densely populated place could support recreational fishing? The authors walk you through the local angling spots and describe key tactics. Carp fishing, pier fishing, and trolling for game fish are just some of the topics covered in a descriptive, beautifully illustrated text. This book will encourage you to get out onto Hong Kong's beautiful waters and cast a line.

**The Impossible City** Oct 20 2021 A boldly rendered—and deeply intimate—account of Hong Kong today, from a resilient young woman whose stories explore what it means to survive in a city teeming with broken promises. “[A] pulsing debut . . . about what it means to find your place in a city as it vanishes before your eyes.” —The New York Times Book Review  
**LONGLISTED FOR THE ANDREW CARNEGIE MEDAL** Hong Kong is known as a place of extremes: a former colony of the United Kingdom that now exists at the margins of an ascendant China; a city rocked by mass protests, where residents rally—often in vain—against threats to their fundamental freedoms. But it is also misunderstood, and often romanticized. Drawing from her own experience reporting on the politics and culture of her hometown, as well as interviews with musicians, protesters, and writers who have watched their home transform, Karen Cheung gives us a rare insider's view of this remarkable city at a pivotal moment—for Hong Kong and, ultimately, for herself. Born just before the handover to China in 1997, Cheung grew up questioning what version of Hong Kong she belonged to. Not quite at ease within the middle-class, cosmopolitan identity available to her at her English-speaking international school, she also resisted the conservative values of her deeply traditional, often dysfunctional family. Through vivid and character-rich stories, Cheung braids a dual narrative of her own coming of age alongside that of her generation. With heartbreaking candor, she recounts her yearslong struggle to find reliable mental health care in a city reeling from the traumatic aftermath of recent protests. Cheung also captures moments of miraculous triumph, documenting Hong Kong's vibrant counterculture and taking us deep into its indie music and creative scenes. Inevitably, she brings us to the protests, where her understanding of what it means to belong to Hong Kong finally crystallized. An exhilarating blend of memoir and reportage, *The Impossible City* charts the parallel journeys of both a young woman and a city as they navigate the various, sometimes contradictory paths of coming into one's own.

**Community College Students in Hong Kong** Jun 23 2019 This book presents a comprehensive account of the educational experiences of community college students in Hong Kong, analyzed through a theoretical lens that intersects sociological theories of inequality, including Bourdieu's concept of cultural capital. The student narratives featured in this book reveal the interweaving personal, academic, and professional considerations and challenges affecting their individual choices in the pursuit of higher education. Chapters also reveal why, despite the relative expansion of educational opportunities, the class gap in higher education persists.

**Today Hong Kong, Tomorrow the World** Jul 29 2022 A gripping history of China's deteriorating relationship with Hong Kong, and its implications for the rest of the world. For 150 years as a British colony, Hong Kong was a beacon of prosperity where people, money, and technology flowed freely, and residents enjoyed many civil liberties. In preparation for handing the territory over to China in 1997, Deng Xiaoping promised that it would remain

highly autonomous for fifty years. An international treaty established a Special Administrative Region (SAR) with a far freer political system than that of Communist China—one with its own currency and government administration, a common-law legal system, and freedoms of press, speech, and religion. But as the halfway mark of the SAR's lifespan approaches in 2022, it is clear that China has not kept its word. Universal suffrage and free elections have not been instituted, harassment and brutality have become normalized, and activists are being jailed en masse. To make matters worse, a national security law that further crimps Hong Kong's freedoms has recently been decreed in Beijing. This tragic backslide has dire worldwide implications—as China continues to expand its global influence, Hong Kong serves as a chilling preview of how dissenters could be treated in regions that fall under the emerging superpower's control. Today Hong Kong, Tomorrow the World tells the complete story of how a city once famed for protests so peaceful that toddlers joined grandparents in millions-strong rallies became a place where police have fired more than 10,000 rounds of tear gas, rubber bullets and even live ammunition at their neighbors, while pro-government hooligans attack demonstrators in the streets. A Hong Kong resident from 1992 to 2021, author Mark L. Clifford has witnessed this transformation firsthand. As a celebrated publisher and journalist, he has unrivaled access to the full range of the city's society, from student protestors and political prisoners to aristocrats and senior government officials. A powerful and dramatic mix of history and on-the-ground reporting, this book is the definitive account of one of the most important geopolitical standoffs of our time.

King Hui Apr 25 2022 Scandal and corruption, drugs and pirates, triads and flower boats; the Japanese occupation of Hong Kong and the Communist takeover of Canton. Peter Hui--the man who once owned all the opium in Hong Kong--was there for all of it. (Asian History)

Public Attitude Toward Political Parties in Hong Kong Aug 25 2019

Ghetto at the Center of the World Jul 05 2020 4e de couv.: Chungking Mansions, a dilapidated seventeen-story commercial and residential structure in the heart of Hong Kong's tourist district, is home to a remarkably motley group of people. Traders, laborers, and asylum seekers from all over Asia and Africa live and work there, and even backpacking tourists rent rooms in what is possibly the most globalized spot on the planet. But as Ghetto at the center of the world shows us, the Mansions is a world away from the gleaming headquarters of multinational corporations -instead it epitomizes the way globalization actually works for most of the world's people. Through candid stories that both instruct and enthrall, Gordon Mathews lays bare the building's residents' intricate connections to the international circulation of goods, money, and ideas.

Hong Kong in the Shadow of China Dec 30 2019 A close-up look at the struggle for democracy in Hong Kong. Hong Kong in the Shadow of China is a reflection on the recent political turmoil in Hong Kong during which the Chinese government insisted on gradual movement toward electoral democracy and hundreds of thousands of protesters occupied major thoroughfares to push for full democracy now. Fueling this struggle is deep public resentment over growing inequality and how the political system—established by China and dominated by the local business community—reinforces the divide between those who have profited immensely and those who struggle for basics such as housing. Richard Bush, director of the Brookings Institution's Center on East Asia Policy Studies, takes us inside the demonstrations and the demands of the demonstrators and then pulls back to critically explore what Hong Kong and China must do to ensure both economic competitiveness and good governance and the implications of Hong Kong developments for United States policy.

Chinese Middlemen in Hong Kong's Colonial Economy, 1830-1890 Jun 15 2021 The traditional view of the Hong Kong colonial economy is that it was dominated by Western companies, notably the great British merchant houses, and that these firms enlisted support from Chinese middlemen - the compradors - who were effectively agents working for the Western firms. This book, which presents a comprehensive overview of the compradors and their economic and social functions over the full period of colonial rule in Hong Kong, puts forward a different view. It shows that compradors existed before the beginning of British rule in 1842, discusses their economic and social roles in the colonial economy, roles which included activities for Western firms, for the government and to support compradors' own commercial activities, and outlines how the comprador system evolved. Overall, the book demonstrates that the compradors played a key role in the formation and development of Hong Kong's economy and society, that they were active participants, not just passive servants of Western companies.

Migration in Post-Colonial Hong Kong Aug 18 2021 Since 1995 most mainland migrants to

Hong Kong have been the wives or non-adult children of Hong Kong men of lower socio-economic status. The majority of immigrants are women, who throughout the past two decades have accounted for more than 60% of immigration. The profile of immigrants has been changing and they are significantly more educated than was the case in the past. Despite the improvement in the educational level of mainland Chinese migrants since 1991, and their increased involvement in paid employment, migrants have continued to experience great difficulty integrating into Hong Kong society and anti-immigrant sentiment seems to have increased over the same period. This raises the question of how gender and socio-economic factors intersect with migration to influence the extent of migrants' adaption to Hong Kong society and culture. The growing anti-China sentiment in Hong Kong also raises the question of how the integration of migrants into a destination society is influenced by the political context. Examining the questions around migration into Hong Kong from a range of multidisciplinary perspectives, this book combines quantitative and qualitative data to portray a detailed image of contemporary Hong Kong.

**Ho Chi Minh in Hong Kong Sep 30 2022** It was the trial of a century in colonial Hong Kong when, in 1931–33, Ho Chi Minh - the future President of Vietnam - faced down deportation to French-controlled territory with a death sentence dangling over him. Thanks to his appeal to English common law, Ho Chi Minh won his reprieve. With extradition a major political issue in Hong Kong today, Geoffrey C. Gunn's examination of the legal case of Ho Chi Minh offers a timely insight into the rule of law and the issue of extradition in the former British colony. Utilizing little known archival material, Gunn sheds new light on Ho Chi Minh, communist and anti-colonial networks and Franco–British relations.

**Escape from Hong Kong Jun 03 2020** On 25 December 1941, the day of Hong Kong's surrender to the Japanese, Admiral Chan Chak—the Chinese government's chief agent in Hong Kong—and more than 60 Chinese and British intelligence, naval and marine personnel made a dramatic escape from the invading army. They travelled on five small motor torpedo boats—all that remained of the Royal Navy in Hong Kong—across Mirs Bay, landing at a beach near Nanao. Then, guided by guerrillas and villagers, they walked for four days through enemy lines to Huizhou, before flying to Chongqing or travelling by land to Burma. The breakout laid the foundations of an escape trail jointly used by the British Army Aid Group and the East River Column for the rest of the war. Chan Chak, the celebrated "one-legged admiral", became Mayor of Canton after the war and was knighted by the British for his services to the Allied cause. His comrade in the escape, David MacDougall, became head of the civil administration of Hong Kong in 1945. This gripping narrative account of the escape draws on a wealth of primary sources in both English and Chinese and sheds new light on the role played by the Chinese in the defence of Hong Kong, on the diplomacy behind the escape, and on the guerillas who carried the Admiral in a sedan chair as they led his party over the rivers and mountains of enemy-occupied China. *Escape from Hong Kong* will appeal not just to military historians and those with a special interest in Hong Kong and China but also to anyone who appreciates a good old-fashioned adventure story.

**Traditional Chinese Medicine—Professionalization and Integration in Hong Kong** Jun 27 2022 Chinese medicine has a rich history that has only been made more complex by its integration with “Western” biomedicine. Each chapter tackles a topic related to the complicated process of legitimizing knowledge and power within a specific social and historical context. Written by professors and researchers with extensive knowledge of Chinese medicine, government regulation, and sociology, this collection provides an overview of the challenges and current social context of Chinese medicine that affect students and practitioners of Chinese medicine, health and para-health biomedical professionals, and patients alike. **Traditional Chinese Medicine: Professionalization and Integration in Hong Kong** is the first book in the Mediated Health Series, which focuses on the effects of media, lifestyle, doctor-patient communication, and the economy on health and aims to help inform medical decisions and enhance the wellbeing of individuals.
