The Ceramics Studio Guide Dec 21 2021 Learning from others' mistakes is always more efficient and less costly than committing them yourself. This book is packed with practical information that will enable potters to successfully complete the many steps in pottery production. Making functional pottery or ceramic sculpture entails many different skill sets and processes in forming clay, drying clay, glazing, and firing. Any one of these steps can cause failures. As ceramics consultant Jeff Zamek points out, under ideal conditions a beginning or advanced student would be guided by a teacher at every step; mistakes and bad habits would be caught as they occurred and corrected. While such learning situations are rare today, this book fills the gap. As Zamek says, "This book offers you forty years of wisdom, generated by my students' and my client ceramics companies' issues with clays, glazes, and kiln firing." With its solutions to common problems, this guide helps potters to succeed.

The Potter's Guide to Ceramic Surfaces Sep 17 2021 Readers will learn how to beautify their ceramic pieces by introducing color, texture, and pattern using a range of decorative techniques at various stages of the making process - at the wet, leatherhard and biscuit stages, as well as (exploring) multiple firing and post-firing methods.

Making Pots Apr 12 2021 Learn the ancient craft of making artisan pots, from clay preparation and drying to glazing and firing. You don't need much to make your first pot, just a piece of clay and an idea. At the same time, it's a craft one develops over a lifetime. Making Pots is a handbook both for the beginner and more experienced potter. Basic skills are taught along with a background explanation of the rich history of pottery. Step-by-step the potter, Stefan Andersson, guides us on the potter's wheel, glaze manufacture and firing, sharing his techniques and know-how. Stefan also describes how to set up your own workshop, make your own tools, and design, stone-by-stone, your own kiln. What happens if there's a pocket of air in your clay? If the potter's wheel slips when you centre the clay? Or if the pots fall apart as you decorate the slipware? For each section there are also solutions to common problems. The book is founded on Stefan's enterprise and production of wood-fired ceramics with photos and diagrams describing the tasks and techniques. Chapters include: Clay Preparation Drying Glazing Firing Kilns Tools Forming Techniques
